

DIGITAL CHECKLIST

Implementation on the **Shopfloor**

Platform: Daimler India Commercial Vehicle Pvt. Ltd.

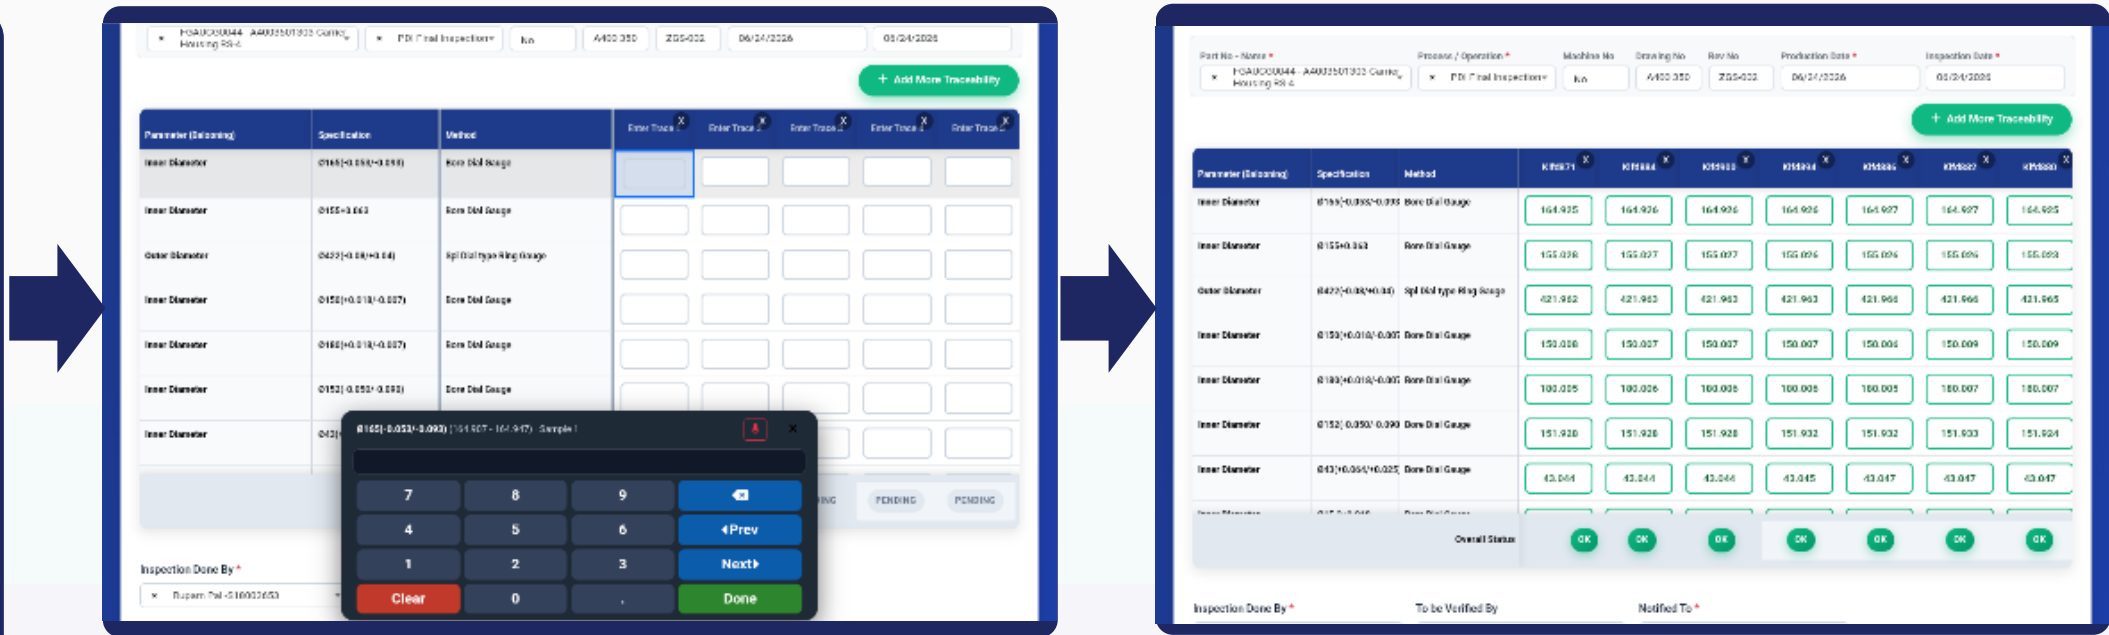

Driven end-to-end by **Sougata Sadhukhan** | QMS

BETTER EVERY DAY, IN EVERY WAY

What Is the Digital Checklist?

Live checksheet entry on a shopfloor tablet

Real-time capture
Data entered digitally at the point of work.

Online review & approval
Timely, accountable verification workflows.

Live dashboards & alerts
No missed inspections or process deviations.

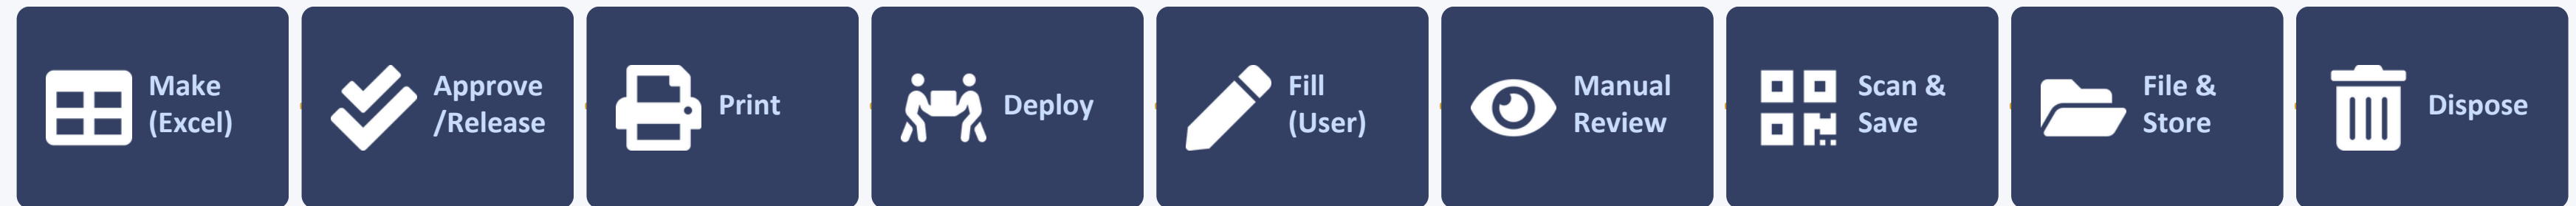

Audit-ready reports

The Journey: From Paper to Digital

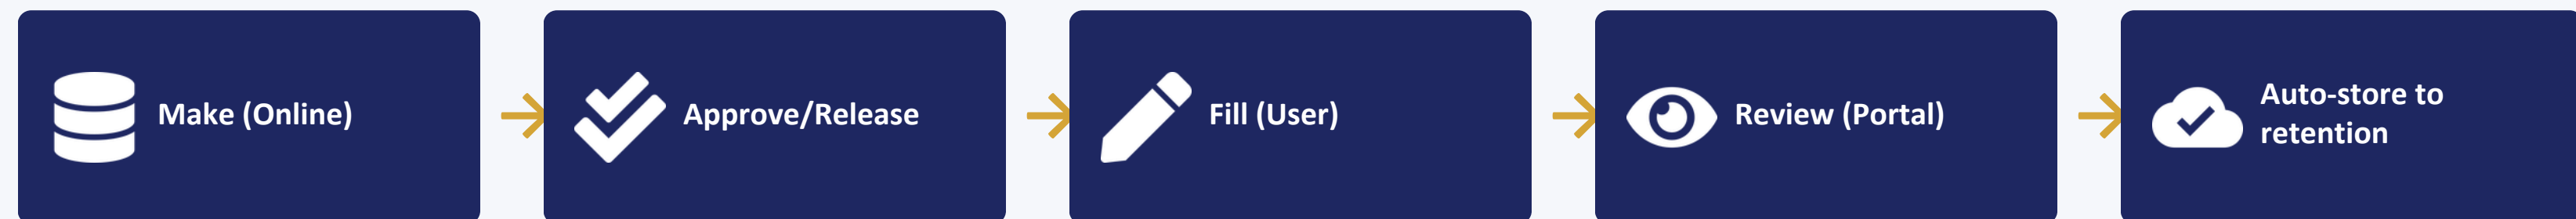

BEFORE · MANUAL

9 steps · paper-based

AFTER · DIGITAL

5 steps · on Rimbuss, via tablet

4 steps eliminated. Printing, distribution, scanning and physical filing are gone — the checksheet lives entirely on the tablet.

LIVE ON THE FLOOR

Adoption at a Glance

Real usage on the shopfloor today — not a pilot on paper.

10

Tablets

deployed across the shopfloor

50

Checksheets / day

filled digitally, every single day

500+

Sheets saved

since go-live, as of 30-06-2026

4

Steps removed

from the end-to-end process

Key Benefits

Fully Paperless

No manual printing — operated directly on tablets.

Live Revision Control

Changes reflect instantly, with full revision history.

Instant Retrieval

Any historical record, found in seconds.

Lighter Operator Load

Data-entry burden removed; time freed for value work.

Auto Retention

Records retained automatically for the required period.

One-Step Entry

4 separate data-entry activities collapsed into one.

Results & Sustainability

500+

sheets of paper saved

since go-live · 30-06-2026

~2.6 kg

CO₂e emissions avoided

and counting

4 → 1

activities consolidated

one clean digital step

How we count the carbon saved

Weight of 1 ream (500 sheets), A4 75 GSM	≈ 2.34 kg
--	-----------

Carbon emission factor of paper	≈ 1.1 kg CO ₂ e / kg
---------------------------------	---------------------------------

2.34 kg × 1.1	= 2.57 kg CO ₂ e
---------------	-----------------------------

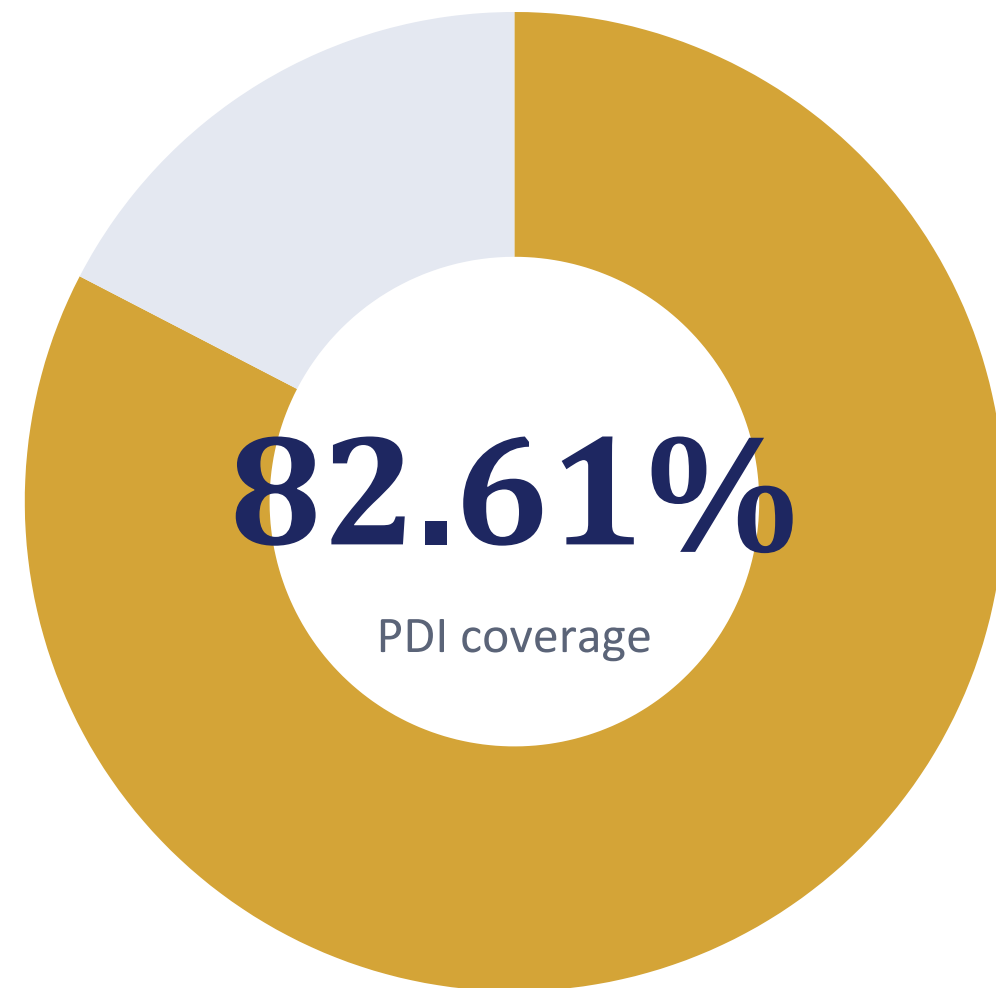

Emissions avoided, till date	≈ 2.6 kg CO ₂ e
------------------------------	----------------------------

Small sheet, big habit

Every checksheet that never gets printed compounds — 50 a day, day after day. Sustainability built into the way we work, not bolted on.

PDI Coverage & What's Next

115 required · 95 completed

Rollout in progress

Shop 2 & Shop 3

Digital checksheets live and running.

Shop 1 (PDI)

Integration currently in progress.

What's next

In-Process Digital Checksheet

Maintenance Digital Checksheet

THE CULTURE BEHIND IT

Core Values, In Action

Knowledge is Our Strength

We keep learning, we keep leading.

K

Integrity

Do what's right, even when no one is watching.

I

Speed

Standards create speed. First-time-right creates pride.

S

Win Together

Built by many hands, driven by one spirit.

W

Ownership

Take charge today. Shape Kiswok's tomorrow.

O

Keep the Customer First

Every part we make moves someone forward.

K

This project needed only two follow-ups from the MD and Plant Head — everything else was carried by Integrity.

Voice from the Shopfloor

“

No more printing checksheets from the ground-floor office — a genuinely hassle-free process.

Monu Kumar Gupta

Quality Inspector, Shop 3

“

No more filing checksheets at the end of each shift — real time and effort saved.

Rupam Pal

Quality Inspector, Shop 3

“

No more scanning after completion — reports download straight from the software and reach customers in a few clicks.

Soumyajit Das

Data Entry Operator, Shop 3

FROM SOUGATA SADHUKHAN

With Gratitude

- **Rajat Malik** Coordinated the entire project from day one
- **Pradip Maity** Motivated & involved his team, trial to implementation
- **Pritam Maji & Montu Mandal** Shopfloor alignment inputs & suggestions
- **Tufan Mahanty & Avijit Mondal** Shopfloor alignment inputs & suggestions
- **Shubhajit Maity, Arpan Debnath & Tutul Malik** Checksheet preparation & support
- **Bapan Maity** Checksheet preparation & support
- **Soumyajit Das** Shopfloor coordination & checksheet preparation
- **Chandramouli Ji** Constant communication & acting on every feedback
- **Runa Halder** Arranged SIM cards, the right way
- **Aftab ji** — Developed the entire module and worked day-work up to 1:00 am on our urgent requests.

For their facilitation

Mayank Sir & Rajnish Sir

Thank You
